2. It is not possible to spare any money either this year or the next year as the Financial Secretary has stated in another reference that the funds to be allotted for original works in the next year's P.W.Budget will be very low.

3. As regards the estimate it may be stated that as the foundations at the place are stated to be treacherous it may not be desirable to join the new work to the old. A separate block may therefore be constructed close to the old one and connected to it by means of a corridor.

From

~~Rajakarya-Pravina~~ C. A. Nanjappa Esq., LRCP(Lond), MRCS(Eng)
~~Rao Bahadur T. V. Arumugum Mudaliar, Esq., M. B., C. M.~~,
Offg. Senior Surgeon with the Government of
H. H. the Maharaja of Mysore, Bangalore.

To

The Chief Secretary to the Government of
H. H. the Maharaja of Mysore,
Bangalore.

Sir,

I have the honor to state that during my last inspection of the Medical School, I found that accommodation in the Dissection Room was utterly inadequate for the number of students whose wants it is expected to serve. For want of room, the students are made to work in batches and as the Demonstrator has Hospital duties to attend to in the mornings, the batch that has to work at dissections in the mornings is doing the same without any supervision, which is very unsatisfactory. I therefore instructed the Principal, Medical School, to submit proposals for enlarging the present Dissection Room. He has accordingly submitted proposals for enlarging the Dissection Room, in his letter No.18, dated 14th July 1920, a copy of which is herein enclosed. The provision of more accommodation by enlarging the Dissection Room 1½ times and by adding two large rooms, one for preparing and preserving bodies and the other for arranging specimens, etc, is urgently called for. I request that early instructions may kindly be issued to the Public Works Department to have the work taken up and finished as early as possible.

I have the honor to be,
Sir,
Your most obedient servant,

Offg. Senior Surgeon.

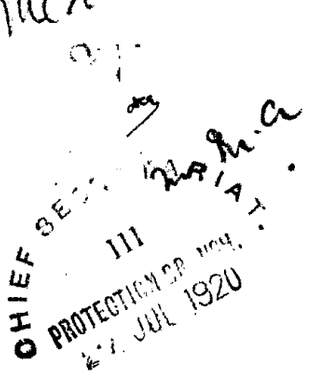
Re: the enlargement of Dissecting Room of the Medical School, Bangalore.



Letter No.18, dated 14th July 1920 from the Principal, Medical School, to the Senior Surgeon.

"I have the honor to bring to your notice that the present dissection room is quite inadequate for the first and second year class to dissect.

The present building was meant for 36 students as the Government intended to take in 18 students in each class. Last year the number was raised to 29 in addition to seven private students.

The present first year class contains 34 students. The total number of students for dissection in this year is 69, which number the present building cannot accommodate.

I therefore suggest that the present building be enlarged and two spacious rooms added to it - one for preparing and preserving bodies and the other for keeping specimens, bones, etc.

I have the honor to be,

Sir,

Your most obedient servant,

(Signed) H. B. Mylvaganam,

Principal, Medical School,

====

The present accommodation in the Dissection room of the Victoria Hospital is not sufficient to meet its demands as per Chief Secretary's No.G.2964/.ed.26-20-2 dated 5-8-1920. Hence as per the requisition of the Medical Officer in charge it is proposed to extend by adding two rooms of 20' x 20' each and a hall of 30' x 20'. The design and the structure adopted for the extension is the same as the existing ~~non~~ ours. The front verandah of the existing portion is to be dismantled and the same rebuilt in front of the extensions.

The sub soil here is some what treacherous and so it is proposed to use surki concrete foundation with expanded metal for the foundation as it was done for the existing building. The foundation cources and the basement are of stone in chunnam and the superstructure of brick in clay plastered with chunnam. The flooring is of Cadappa slabs on 3" concrete bed and the roofing of 1st class Mangalore tiles on teak reepers. The necessary doors and windows, ventilators are also provided.

The rates provided are the usual ones.

Requests early sanction to the estimate.
